PASSAGE Festival is the biggest Nordic street theatre festival. It takes place every year in Elsinore, the last week of July. The festival presents a wide range of Street theatre in public space - at the beach, in the forests, squares and walking streets, in the gym and allotments. Places we are very familiar with and where art seldom happens.

Every year we accomodate more than 100 high end street theatre artists and, this year, also poets from the Balkans.

With **PASSAGE Volunteer Camp** we would like to make connections possible, between you, between us, the performers, the audience and 24 other young Europeans joining the camp.
